Bonsegna

Negroamaro

Negroamaro by Bonsegna is a rich and expressive red wine, showcasing the character of this native grape. It opens with notes of dark berries, plum, and subtle spice, with light herbal undertones. The palate is smooth and well-structured, with soft tannins and a persistent finish.

Flavor profile

The wine has a light garnet color and an intense aroma of ripe black fruits such as plum and black cherry.

Food pairing

This wine complements roasted meats and tomato-based pasta dishes. While it can be enjoyed immediately, allowing it to breathe for half an hour after opening will enhance its overall balance. Serve it in a medium-wide glass at a temperature of 61-64°F.

Tasting notes

Vinified with 100% Negroamaro grapes, this red wine exhibits aromas of red berried fruits with light spicy hints typical of the grape. The palate is full and rich with silky tannins. It has a pleasant spiciness accompanied by some sweet notes and a soft acidity. Soft and balanced with good structure.

Winemaking

Fermentation in stainless steel

Aging

8 months refinement in bottles

Aging potential

1-5 years
